

## Traditional Archery – Sample Design Briefs

“Excellence is achieved, not purchased”

### Version 1

Please can you create one version with the text as per the source design :“Excellence is achieved, not purchased”

I'd like you to create this with a clearer font than they have used.

Additionally add a dividing line underneath with an arrow and underneath this the text "TRADITIONAL ARCHERY"

### Version 2

Use the same format as this image but make the first bow a really old style of bow and the second bow a really modern bow

“Just a Fletch Wound”

Create a version of this image without the background just showing the arrow.

Make sure it has a slight damage on the feather and add the text "It's just a fletch wound"

## Archery Eyes

### Version 1

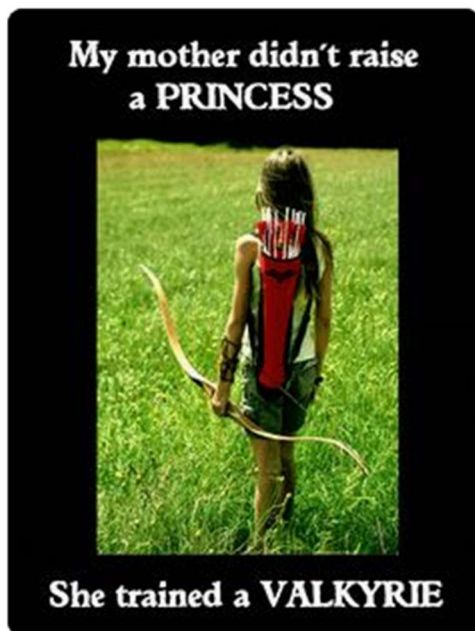

Create an image similar to the source image i uploaded, where the pupils are replaced with archery targets

Use the style shown in the buddha eyes images as a guide but only show the eyes and not the mouth (<https://www.gettyimages.co.uk/detail/illustration/buddha-eyes-isolated-on-white-background-royalty-free-illustration/916649614>)

### Version 2

Based on the style of the buddha eyes again, however in this version can you use the bow as the nose as well as keeping the targets in the eyes

## Valkyrie Hunter

Use the image provided as a guide and find images with a girl with a bow and arrow and the same text as the source image.

I'd like this one to be a line drawing with no background provided so the focus is on the girl

For one version can you add a flourish to the word 'Princess' so it includes a crown graphic, and also to the word 'Valkyrie' so it potentially includes a bow or arrow within the letters.
